KANAMOZA INDUSTRIAL SUPPLIERS

MAINTENANCE CHEMICALS & CONSUMABLES CATALOGUE

Industrial Chemical & Consumable Solutions

Kanamoza Industrial Supplies provides industrial-grade chemical solutions and maintenance consumables designed to support operational efficiency, equipment reliability, and preventative maintenance across mining, construction, manufacturing, transport, engineering, and industrial sectors. Our solutions are sourced from trusted suppliers and tailored for demanding industrial environments requiring performance, durability, and compliance.

Content

1. Product Overview	3
2. Engine oils & lubrication oils	6
3. Compressor oils	6
4. Transmission and gear oils	7
5. Greases	8
6. Coolants and heat transfer fluids	9
7. Industrials Maintenance Chemicals	10

INDUSTRIAL MAINTENANCE SERVICES

INDUSTRIAL LUBRICANTS

Heavy Duty Engine Oils	Multi-Grade Oils	Synthetic Oils	Semi-Synthetic Oils
High-performance engine oils formulated for heavy-duty diesel engines operating in demanding industrial, transport, mining, construction, and commercial environments. Designed to provide engine protection, thermal stability, cleanliness, and extended service life.	Versatile engine oils engineered to maintain performance across varying operating temperatures, supporting smoother cold starts, improved lubrication, and reliable engine protection.	Advanced synthetic engine oils developed for superior wear protection, oxidation resistance, cleaner engine operation, and extended oil drain intervals under severe operating conditions.	Semi-synthetic engine oils combining mineral and synthetic technologies to deliver enhanced engine protection, improved durability, and stable performance across demanding operating conditions.

HYDRAULIC FLUIDS

Rotary Screw Compressor Oils	Air Compressor Lubricants	Synthetic Compressor Fluids
High-performance compressor lubricants designed for rotary screw compressors operating under continuous industrial loads, providing thermal stability, wear protection, and extended service intervals.	Industrial air compressor lubricants formulated to reduce wear, minimise deposits, improve efficiency, and maintain reliable compressor performance in demanding environments.	Advanced synthetic compressor fluids engineered for superior oxidation resistance, cleaner operation, reduced maintenance, and extended drain intervals in severe industrial applications.

TRANSMISSION & GEAR OILS

Transmission Fluids	Gear Oils	Final Drive & Axle Fluids	Synthetic Transmission & Gear Lubricants
Transmission fluids designed to support smooth gear shifting, hydraulic performance, clutch protection, and reliable transmission operation in commercial, industrial, and heavy-duty machinery.	High-performance gear oils formulated to provide extreme pressure protection, minimise wear, reduce friction, and maintain efficient operation under heavy load and high torque conditions.	Specialised final drive and axle lubricants engineered for severe-duty operations requiring enhanced load-carrying capability, wear protection, and thermal resistance.	Advanced synthetic lubrication solutions designed for superior oxidation resistance, extended drain intervals, improved cold-start performance, and enhanced equipment protection under extreme operating conditions.

GREASES

Multi-Purpose Greases	Heavy Duty & Extreme Pressure (EP)	Water Resistant Greases	High Temperature Greases
General-purpose greases formulated for reliable lubrication, wear protection, and smooth equipment operation across industrial, fleet, and workshop applications.	General-purpose greases formulated for reliable lubrication, wear protection, and smooth equipment operation across industrial, fleet, and workshop applications.	Moisture-resistant greases designed to protect components operating in wet, humid, and washdown industrial environments.	Thermally stable greases formulated to maintain lubrication performance under elevated operating temperatures and demanding industrial conditions.
Semi-Fluid & Centralised System Greases	Special Application Greases	Synthetic Greases	
Flowable greases developed for automatic lubrication systems requiring efficient circulation and continuous equipment protection.	Application-specific greases engineered for specialised industrial systems, heavy equipment joints, and fleet maintenance components.	Advanced synthetic greases designed for extended service intervals, superior oxidation resistance, and enhanced severe-duty performance.	

COOLANTS & HEAT TRANSFER FLUIDS

Heavy Duty Coolants	Extended Life Coolants	Conventional Coolants	Heat Transfer Fluids
Industrial cooling fluids formulated to regulate engine temperatures and protect heavy-duty systems against corrosion and overheating.	Long-service coolants engineered for enhanced durability, reduced maintenance intervals, and reliable cooling system performance.	Standard cooling solutions developed for dependable temperature regulation and corrosion protection across general industrial applications.	Thermal circulation fluids engineered for efficient heat transfer performance in industrial heating and process systems.
Synthetic Thermal Fluids			
High-performance synthetic thermal fluids designed for superior oxidation resistance and stable operation under extreme temperatures.			

INDUSTRIAL MAINTENANCE CHEMICALS

Degreasers	Penetrating Sprays	Corrosion Protection Chemicals	Electrical Contact Cleaners
<p>Industrial cleaning chemicals formulated to remove grease, oil, and stubborn contaminants from machinery, tools, and workshop surfaces.</p>	<p>Lubricating maintenance sprays designed to loosen seized components, reduce friction, and improve servicing efficiency.</p>	<p>Protective chemical solutions engineered to prevent rust, oxidation, and surface deterioration in industrial environments.</p>	<p>Precision cleaning chemicals developed for electrical systems, electronic components, and sensitive contact surfaces.</p>
Adhesives & Sealants	Aerosols & Sprays	Cleaning Consumables	
<p>Industrial bonding and sealing compounds formulated for repairs, assembly applications, and leak-resistant protection.</p>	<p>Multi-purpose maintenance sprays designed for lubrication, cleaning, protection, and workshop servicing applications.</p>	<p>Workshop cleaning materials and spill-control consumables developed for industrial maintenance and equipment cleaning operations.</p>	

ENGINE OILS & LUBRICATION SOLUTIONS

COMPRESSOR OILS

DIESEL ENGINE OILS

General heavy-duty engine protection

Typical Application

Trucks, mining, construction

- Castrol® VECTON® FA-4
- Castrol® VECTON® CK-4
- Castrol® VECTON® CJ-4
- Castrol® VECTON® CI-4 Plus
- Castrol® VECTON® CI-4
- Castrol® VECTON® CH-4

SEMI-SYNTHETIC OILS

Balanced performance & cost efficiency

Typical Application

Commercial mixed-use fleets

- Castrol® VECTON® Multi-Fuel CK-4/NG
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® CK-4
- Castrol® VECTON® FA-4

MULTI-GRADE OILS

Wide temperature performance

Typical Application

Fleet & commercial vehicles

- Castrol® VECTON® Multi-Fuel CK-4/NG
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® VECTON® CK-4
- Castrol® Duratec™ ES
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® Duratec™ L
- Castrol® Duratec™ A
- Castrol® VECTON® CK-4/SN
- Castrol® Syngear

SYNTHETIC OILS

Extended drain & severe duty

Typical Application

Industrial & long-haul operations

- Castrol® VECTON® Long Drain CK-4/SN
- Castrol® VECTON® CK-4/SN
- Castrol® Duratec™ LFG 40
- Castrol® Duratec™ A
- Castrol® Duratec™ L
- Castrol® Transmax® Offroad V 75W-75

ROTARY SCREW COMPRESSOR OILS

Continuous-duty compressor lubrication

Typical Application

Manufacturing, mining, workshops

- Castrol® VECTON® Multi-Fuel CK-4/NG
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® VECTON® CK-4
- Castrol® Duratec™ ES
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® Duratec™ L
- Castrol® Duratec™ A
- Castrol® VECTON® CK-4/SN
- Castrol® Syngear

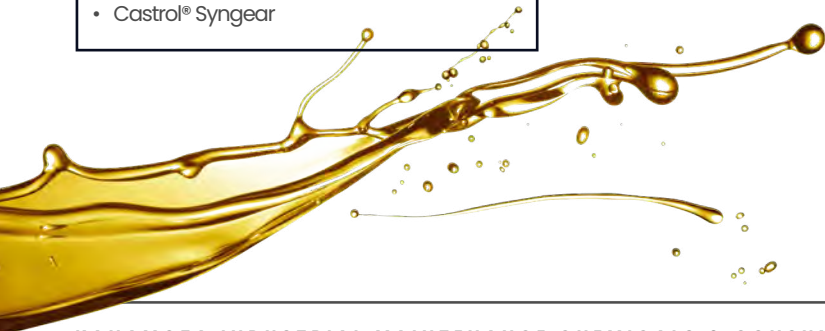

AIR COMPRESSOR LUBRICANTS

General compressor protection

Typical Application

Pneumatic systems, industrial plants

- Castrol® VECTON® Multi-Fuel CK-4/NG
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® VECTON® CK-4
- Castrol® Duratec™ ES
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® Duratec™ L
- Castrol® Duratec™ A
- Castrol® VECTON® CK-4/SN
- Castrol® Syngear

COMPRESSOR OILS CONTINUED...

SYNTHETIC COMPRESSOR FLUIDS

Extended-life high-performance fluids

Typical Application

Heavy-duty & high-temperature
systems

- Castrol® VECTON® Multi-Fuel CK-4/NG
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® Duratec™ ES
- Castrol® VECTON® Long Drain CK-4
- Castrol® VECTON® FA-4
- Castrol® Duratec™ L
- Castrol® Duratec™ A
- Castrol® VECTON® CK-4/SN
- Castrol® Syngear

TRANSMISSION FLUIDS

Smooth shifting and hydraulic protection

Typical Application

Trucks, machinery, equipment

Automatic Transmission Fluids

- Castrol® Transmax® ATF/CVT Universal
- Castrol® Heavy Duty Multi-Purpose ATF
- Castrol® TranSynd® 668

Manual Transmission Fluids

- Castrol® Transmax® Manual E Long Life 40
- Castrol® Syntrans™

Powershift / Transmission Fluids

- Castrol® Trans-C™ HT
- Castrol® Trans-C™
- Castrol® TranSynd® RD

Tractor Transmission Fluids

- Castrol® UTF – Universal Tractor Fluid

GEAR OILS

Load and wear protection

Typical Application

Gearboxes, drives, industrial systems

Mobile Equipment Gear Oils

- Castrol® AP Gear Lubricant
- Castrol® Syngear™

Industrial / Stationary Gear Oils

- Castrol® Alpha® HC
- Castrol® Alpha® HC EP
- Castrol® Alphasyn™ T
- Castrol® Alpha® CLP Gear Lubricant

SYNTHETIC LUBRICANTS

Extended-life high-performance
lubrication

Typical Application

Industrial and fleet operations

- Castrol® VECTON® Long Drain CK-4/SN
- Castrol® VECTON® CK-4/SN
- Castrol® Trans-C™ HT
- Castrol® TranSynd® RD
- Castrol® TranSynd® 668
- Castrol® Syntrans™
- Castrol® Syngear™
- Castrol® Alpha® HC
- Castrol® Alpha® HC EP
- Castrol® Alphasyn™ T
- Castrol® Airco® SR

FINAL DRIVE FLUIDS

Severe-duty drivetrain protection

Typical Application

Mining and construction equipment

- Castrol® Axle FD-1
- Castrol® Transmax® Offroad V 75W-75

GREASES

MULTI-PURPOSE GREASES

General lubrication and wear protection

Typical Application

Industrial machinery, fleet maintenance, bearings, workshop equipment

- Castrol® Pyroplex® Red
- Castrol® HD Lithium
- Castrol® HD Lithium 00

HEAVY DUTY & EXTREME PRESSURE (EP)

High-load and severe-duty protection

Typical Application

Mining equipment, construction machinery, articulation joints, bucket pins

- Castrol® Pyroplex® Gold
- Castrol® Contractor Special
- Castrol® Pyroplex® Protection ES

WATER RESISTANT GREASES

Moisture and washout resistance

Typical Application

Wet environments, off-road equipment, exposed machinery

- Castrol® Axle FD-1
- Castrol® Transmax® Offroad V 75W-75

HIGH TEMPERATURE GREASES

Thermal stability and heat resistance

Typical Application

Wheel bearings, high-speed bearings, industrial equipment

- Castrol® Pyroplex® Red
- Castrol® Pyroplex® Gold

SPECIAL APPLICATION GREASES

Application-specific lubrication solutions

Typical Application

Fifth wheels, hinge pins, specialised fleet systems

- Castrol® Fifth Wheel Grease

SYNTHETIC GREASES

Extended-life high-performance greases

Typical Application

Fleet operations, severe-duty environments, long service intervals

- Castrol® Pyroplex® Gold
- Castrol® Pyroplex® Protection ES
- Castrol® Spheero® SHL 00

SEMI-FLUID & CENTRALISED SYSTEM GREASES

Flowable greases for automatic lubrication systems

Typical Application

Central lubrication systems, enclosed gear systems, wheel-end systems

- Castrol® Spheero® SHL 00
- Castrol® HD Lithium 00

COOLANTS & HEAT TRANSFER FLUIDS

CONVENTIONAL COOLANTS

Standard coolant protection for reliable temperature control

Typical Application

General machinery, commercial vehicles, workshop equipment

- Castrol® Radicool™ Heavy Duty Premix

EXTENDED LIFE COOLANTS

Long service interval cooling solutions with enhanced durability

Typical Application

Fleet operations, commercial vehicles, industrial machinery

- Castrol® Radicool™ SF-O Premix

SYNTHETIC THERMAL FLUIDS

High-performance temperature stability and oxidation resistance

Typical Application

Industrial processing plants, severe-duty thermal systems

- Castrol® Perfecto® HT 4
- Castrol® Perfecto® HT 5 Plus
- Castrol® Radicool™ SF-O Premix

HEAVY DUTY COOLANTS

Engine cooling and corrosion protection for demanding environments

Typical Application

Trucks, generators, mining and industrial equipment

- Castrol® Radicool™ SF-O Premix
- Castrol® Radicool™ Heavy Duty Premix

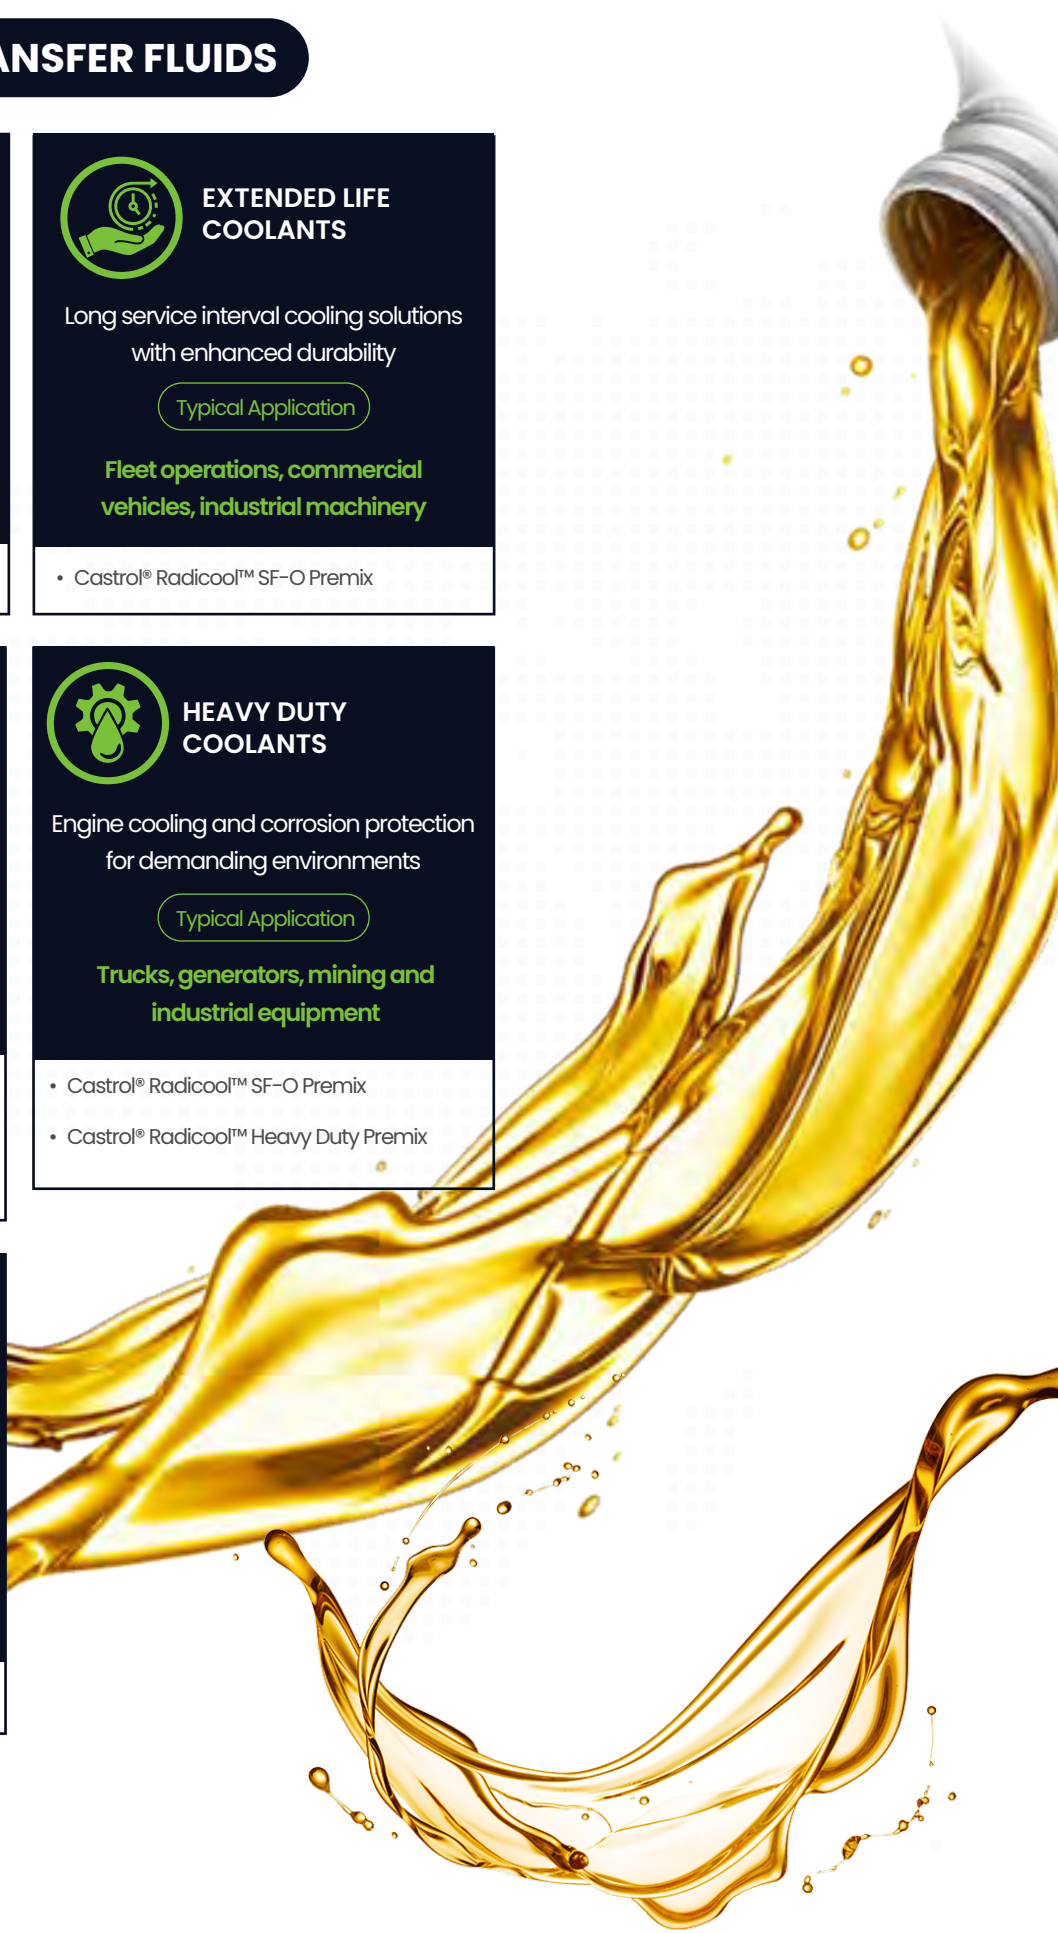

HEAT TRANSFER FLUIDS

Thermal circulation and high-temperature heat transfer solutions

Typical Application

Industrial heating systems, process equipment, closed-loop systems

- Castrol® Perfecto® HT 4 and HT 5 Plus

INDUSTRIAL MAINTENANCE CHEMICALS

DEGREASERS

Heavy-duty grease and oil removal

Typical Application

Machinery and workshop cleaning

- CRC Heavy Duty Degreaser
- Q20 Heavy Duty Degreaser
- Shield Water-Based Degreaser
- WD-40 Specialist Degreaser
- Aerol Industrial Citrus Cleaner

PENETRATING & LUBRICATING SPRAYS

Loosening and lubrication maintenance sprays

Typical Application

Mechanical servicing and repairs

- Q20 Multi-Purpose Lubricant
- WD-40 Multi-Use Product
- CRC Anti-Seize Compound Spray
- Shield Rust Off Spray
- Aerol Penetrating Oil

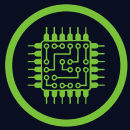

CORROSION PROTECTION CHEMICALS

Rust and oxidation prevention solutions

Typical Application

Metal surface protection

- CRC SP-400 Corrosion Inhibitor
- Q20 Anti-Rust Spray
- Shield Zinc Guard Coating
- Aerol Rust Preventative Spray
- WD-40 Specialist Corrosion Inhibitor

CONTACT & ELECTRICAL CLEANERS

Precision electrical cleaning solutions

Typical Application

Electrical maintenance systems

- CRC Contact Cleaner 2000
- Q20 Electrical Cleaner
- WD-40 Specialist Contact Cleaner
- Shield Electrical Contact Spray
- Aerol Electronic Cleaner

ADHESIVES & SEALANTS

Industrial bonding and sealing solutions

Typical Application

Repairs and assembly work

- Pratley Steel Quickset
- Loctite 243 Threadlocker
- Den Braven Silicone Sealant
- Prestik Industrial Adhesive
- Permatex Gasket Maker

AEROSOLS & SPRAYS

Maintenance cleaning and lubrication sprays

Typical Application

Workshop and machinery servicing

- CRC Brake Cleaner
- Q20 Silicone Spray
- WD-40 Specialist Chain Lube
- Aerol Air Duster
- Shield Anti-Spatter Spray

Industrial cleaning and spill control

Typical Application

Equipment and workshop maintenance

CLEANING CONSUMABLES

- Kimtech Industrial Wipes
- Matus Spill Absorbent Pads
- Tork Heavy Duty Cleaning Cloth
- WypAll Degreasing Wipes
- SpillTech Oil Absorbent Roll
